GLASS™**  
SOLUTIONS

# Exercise your Pilkington **Texture**™ glass options while you're still in planning mode

## Pilkington **Texture**™ glass

Striking geometric and random patterns. Fascinating interplays of abstract light and shade. Softening and spreading images in varying degrees of obscurity. Pilkington Texture glass gives you the freedom to choose. The freedom to decorate with a spectrum of visually stimulating lighting effects, while at the same time balancing your needs between light and privacy.

## Pilkington **Wired** glass

A traditional favourite now enjoying a popular renaissance. Pilkington Wired Glass combines varying levels of privacy with Grade B safety to Australian Standard AS2208. Its distinctive look is both practical and appealing. Look for it especially in 'working' situations where it combines beautifully with stainless steel or other high-tech finishes.

*Note:*

*Pilkington Pyroshield™ is manufactured to Grade C, BS6206.*

## Pilkington Texture™ glass is an inspiration to traditionalists and modernists alike

Builders and renovators of older style homes will be quick to realise the design potential of Pilkington Texture and wired glass ranges. Imagine Pilkington Texture glass infill panels in your classical front door admitting streams of light but preserving much-needed privacy. Now add matching sidelights and you've made a grand entrance. But don't stop there. This brochure shows a wide range of exciting patterns that are sure to be inspirational in your room-by-room quest to recreate an authentic period home.

Modernists also take delight in the range of Pilkington Texture glass, discovering images of contemporary sophistication using geometric and linear designs, ideal for accenting the crisp lines in today's clean-cut interiors.

### Start decorating before you start furnishing

Choosing the glass for your new project is the same as choosing tiles or floor coverings. It's something you do up-front, but it's possibly even more important. With the right Pilkington Texture glass, you can create elegance with light, privacy with practicality, and achieve an overall style with flair.

Today's Pilkington Texture glass is not just for those old established privacy uses in shower screens and doors. With a scintillating range of Pilkington Texture and wired glass, you now have many 'whole of house' options to consider – from door inserts and wall panels to shelving, balustrades and partitions. Or look at wall cladding, leadlighting and louvres – even benchtops and splashbacks or glass-topped furniture. There are no rules. Pilkington texture glass can lighten and brighten your life in so many beautiful ways.

▲ *New Cathedral*

Pilkington Texture glass designs are timeless. Whether you're planning to faithfully recreate the style of a bygone era or intend going ultra-modernist, you'll find plenty of different styles from which to select. So there's an abundance of visual effects available to spark your creative imagination no matter what interior decor you're planning.

***With Pilkington Texture glass, interior decorating starts at the planning stage.***

### Where to use it

- Windows – full privacy
- Shower and bath screening
- Door inserts
- Wall panels
- Shelving
- Balustrades
- Partitions
- Leadlighting
- Louvres
- Splashbacks – kitchen and bathroom
- Glass-topped furniture

**PILKINGTON**

**Privacy with translucency**

We know privacy is an important consideration so the selection chart below also rates the obscurity of each glass type. And it's not just for bathrooms. Thinking house designers also make full use of Pilkington Texture glass at entry points around the home where it provides privacy through obscurity without sacrificing natural light. Pilkington Texture glass is also applicable where privacy from overlooking is required.

**How do you rate privacy?**

Pilkington Texture glass provides privacy through diffusion and obscuration. While all Texture glass provides a degree of privacy, the types of texture glass with the most obscuration are indicated by a ✓. This level of obscuration is suggested for overlooking privacy.

**Do the world a favour with  
Pilkington Texture™ glass**

We're proud that the Pilkington Texture glass we manufacture in Australia contains up to 90% recycled product – a world-class effort in caring for the environment.

**Pilkington Texture™ glass is your  
design solution**

Now you know that decorative glass is the stimulating decor element you're missing out on, talk to your designer, builder or window supplier.

**TOUGHENING & LAMINATING**

The above chart illustrates the suitability of the various patterns to be laminated (using the PVB method) or toughened.

**SAFETY**

Australian Standard AS1288 Glass Installation Code specifies that safety glazing material (toughened, laminated or safety wired) should be used in specific situations. Further advice regarding Safety Glazing can be obtained from your Pilkington Sales Centre or stockist.

**FIRE RESISTANCE**

While Pilkington Wired Glass does not on its own have a fire rating, it can be part of glass/door/window assembly which as a complete unit may achieve a fire rating.

**THERMAL RESISTANCE**

Wired Glass absorbs solar radiation and may be subject to thermal stress. It is preferable not to expose Wired Glass to severe direct sunlight. Similarly, jets of very hot water played directly onto Wired Glass may result in thermal cracking and should be avoided.

**Tone Glass** may be susceptible to thermal

breakage when glazed externally. Further technical advice should be obtained from your Pilkington Sales Centre or stockist before specifying.

For more detailed specifications refer to the separate technical information sheet.

Privacy – accounts for glass types that provide the most obscuration. It is recommended that samples are viewed to ascertain that the obscuration level is appropriate.

As part of Pilkington Australia's policy of continued improvement, the company reserves the right, at any time, at their discretion and without notice, to discontinue or change the features, designs, materials, colours and other specifications of their products, and to either permanently or temporarily withdraw any such products from the market without incurring any liability.
